The effect of this factor of the standard of living, both in the way of retrenchment in the obscurer elements of consumption that go to physical comfort and maintenance, and also in the paucity or absence of children, is perhaps seen at its best among the classes given to scholarly pursuits. It will be objected that people play golf because it's a fun game -- well, perhaps so, but why do they choose this game rather than basketball, or bocce ball, or Parcheesi? It is a distinction between what Veblen called "institutions" and "technology".
