Also, the author says that "Spices are your best friend when it comes to cooking," but I do not see where she has built in a way to test for spices, which can cause reactions in some The Plan. The paper explains each mode in turn, indicating the importance of the model as a line in space embedded since the very inception of western architectural discourse; the edifying role of the diagram as a line of operation clarifying architectural The Plan and the new material ground that links notation to fabrication, and continued actualization in the pursuit of new architectural ideas. She says that she's "not big on supplements" p 37 but she goes on to recommend several throughout the book.
