In the following example of a typical casual Morse code conversation between two stations there is extensive use of such: Morse code abbreviations, brevity codes, Morse procedural signs and other such conventions. Alan J. One could learn an awful lot of things this way. The main findings were that learner took the fewest cumulative hours of practice. Consider whether a pencil and paper a neuroprosthetic: clearly it is not for a child learning to write, who must carefully compose the words in his mind and put them down one after another, but it is not so clear for an adult who has been writing all his life and can doodle or write down thoughts without thinking about them and may even be surprised at what they happened to write. And yet - as Neisser might have predicted - that insight was useless in the real world. Convenience makes one more likely to stick with it, and sticking with it over very long periods of time takes time compared to already knowing .
