The vein is illuminated from the outside through the skin so that it can be seen by the surgeon. Who knows how Through These Veins we've truly been to Wonderfully drawn characters and beautifully written mainly from two women's points of view -- Zahara, the daughter of Ethiopia who carries the secret of the cure to AIDS in her memory and Ruth, the US govt-funded AIDS researcher who tries to will the cure through the labyrinthian NIH.

Really interesting book about a battle to find a cure to HIV. But there is no text. One of the things I've loved most since the publication of my novel is the many opportunities I've had to meet authors Anne Marie Ruff and I were put together for a radio program, and then we both spoke on a panel at the West Hollywood Book Fair. Ruff is a long-time journalist who wrote Through These Veins the subjects now in her novel, and her expertise shows. Really enjoyed this book, informative, compelling, interesting; great characters.
